

Stokzz

Stokzz is designed to track the delivery of products to a shop owner. You can manage the current stock of the products. You can also manage the products the shop owner receives through this app and track the amount delivered over time.

Who can use STOKZZ

The **Agent** who is the distributor and the **Salesmen** who work under the respective agent can use this app

1. AGENTS

Agent will be the admin who can add new Salesmen, Products, shops, Vehicles and Drivers into the app. He can View and Edit/ Delete the above. Agent will need to approve each Salesman. Only the approved Salesmen can be viewed in the app. Agent is the one who can add Stock details of each product. He can View and Edit/ delete the same.

1.1. LOGIN

Agent can login using a Username/ Email and Password. In the login page New Agent Registration also can be done. When the Agent is logged in the home page have the following buttons
